

List of Tables and Figures

Figures

Figure 1: Austrian province of Styria with the Mura River Valley study area outlined.

Figure 2: Example of an Austrian historic cadastral map from 1820.

Figure 3: Aerial image of author's project area in the Mura River Valley showing local hydrology, areas of high prehistoric and historic artifact concentrations and areas of high phosphate.

Figure 4: Phosphate results from research conducted at Cumidava, Romania.

Figure 5: Distribution map of the twenty-four forts and tower enclosures in the Alto Alentejo region (Mataloto 2002, fig. 71), numbered: 1 – *Malhada das Penas 1*; 2 – *Beçudos*; 3 – *Penedo do Ferro*; 4 – *Soeiros*; 5 – *Cortes*; 6 – *Outeiro Pintado*; 7 – *Três Moinhos*; 8 – *Monte do Almo*; 9 – ***Caladinho***; 10 – *Castelinho*; 11 – *Rocha de Províncias*; 12 – *Outeiro dos Castelinhos do Rosário*; 13 – *Castelo da Pena de Alfange*; 14 – *Monte do Gato 2*; 15 – *Defensinha*; 16 – *Moinho do Tojal*; 17 – *Mariano*; 18 – *Outeiro da Mina*; 19 – *Terrugem*; 20 – *Castelo do Mau Vizinho*; 21 – *Santa Justa*; 22 – *Sempre-Noiva*; 23 – *Castelo dos Mouros*; 24 – *Vale d'El-Rei de Cima*.

Figure 6: Ceramics collected during initial survey at Caladinho (Mataloto 2002, fig. 28): 1 and 3 – ceramic decorated with a reel; 2 – ceramic base of grey fabric; 4-5- cups; 6-9 – amphorae of Haltern 70 amphorae; 10-11 – Dressel 7-11 amphorae.

Figure 7: Plan of the excavation at Caladinho (illustration by R. Clemente).

Figure 8: Bases of Italian *terra sigillata* platters, one bearing the name of the potter “Dareus.”

Figure 9: Italian *terra sigillata* fragments with stamps tentatively identified as the names of “A. Vibius Scrofula” and “Camurius.”

Figure 10: Representation of the Tal'yanki giant-settlement (red) with a five-kilometer site catchment radius (green) in relation to nearby settlements.

Tables

Table 1: Available land area defined by 1 km intervals from the site boundary.

Table 2: Land requirements given differential figures for population (based on 4,5,6, or 7 individuals on average per household and a total of 1600 households) and average cereal production (based on figures from Dennell and Webley 1975 and Bibikov 1965).
